Access control

Use these settings to restrict how users are allowed to access resources.

Unmanaged devices

Restrict access from devices that aren't compliant or join the organization.

Idle session sign-out

Automatically sign out users from inactive browser sessions.

Network location

Allow access only from specific IP addresses.

Apps that don't use modern authentication

Block access from Office 2010 and other apps that can't use modern authentication.

OneDrive access restriction

Restrict access to OneDrive content by security group.

Unmanaged devices

The setting you select here will apply to all users in your organization.
[Learn more about controlling access from unmanaged devices.](#)

If you don't want to limit or block access organization-wide, you can do so for specific sites.
[Learn how to control access to specific sites by using Microsoft PowerShell](#)

☐ Allow full access from desktop apps, mobile apps, and the web

☒ Allow limited, web-only access

☐ Block access

Apps such as Microsoft Teams, Planner, Delve, MyAnalytics, and Newsfeed will be affected. [Learn more about service dependencies](#)

Chapter 16:

The screenshot shows the Microsoft Entra admin center interface. The left sidebar contains navigation links for Protection, Identity Governance, Entitlement management, Access reviews, Privileged Identity Management (selected), Lifecycle workflows, External Identities, User experiences, Hybrid management, Monitoring & health, and Show less. The main content area is titled "Privileged Identity Management | Quick start". It includes a "Quick start" section with tasks like "My roles", "My requests", "Approve requests", and "Review access". There is also a "Manage" section with "Microsoft Entra roles", "Groups", and "Azure resources". A "What's new" section is visible, and a "Get started" link is present. A notification banner at the top states "Azure Active Directory is becoming Microsoft Entra ID. Learn more".

The screenshot shows the "Contoso | Roles" page in the Microsoft Entra admin center. The left sidebar is the same as the previous screenshot. The main content area is titled "Contoso | Roles" and includes a "Quick start" section with "Overview" and "Tasks". The "Overview" section shows a table of roles with columns for Role, Description, Active, and Eligible. The table lists several roles, including "Application Administrator", "Application Developer", "Attack Payload Author", "Attack Simulation Administrator", "Attribute Assignment", "Attribute Definition", and "Security Administrator".

Role	Description	Active	Eligible
Application Administrator	Users with this role can create and ...	1	0
Application Developer	Users with this role can create applic...	0	0
Attack Payload Author	Can create attack payloads that an a...	0	0
Attack Simulation Ad...	Can create and manage all aspects o...	0	0
Attribute Assignment...	Assigns attribute keys and values to ...	1	0
Attribute Assignment...	Reads attribute keys and values to ...	0	0
Attribute Definition ...	Defines and manages the definition ...	2	0
Attribute Definition ...	Read the definition of security attrib...	0	0

The screenshot shows the "Add assignments" page in the Microsoft Entra admin center. The left sidebar is the same as the previous screenshots. The main content area is titled "Add assignments" and includes a "Resource" section with "Contoso" and a "Resource type" section with "Directory". The "Select role" dropdown is set to "User Administrator". The "Scope type" dropdown is set to "Directory". The "Select member(s)" section shows "1 Group(s) selected". The "Selected member(s)" section shows a "Custom role group" with a "Remove" button. The "Next >" and "Cancel" buttons are at the bottom.
